📍 Calamba City, Philippines

EDUCATION

2021 - Current
CITY COLLEGE OF CALAMBA

- Bachelor of Science in Computer Science
- 219 General Lim Street, Calamba, Laguna, 4027, Philippines

ACHIEVEMENTS

- Dean's Lister:
1st Year - 1st & 2nd Semester
2nd Year - 1st Semester
3rd Year - 1st Semester

COURSEWORK

- Data Structures and Algorithms
- Advanced Object-Oriented Programming
- Database Management System
- Operating System
- Web Development
- Software Engineering

SKILLS

- **Programming Languages:** Java, Python, C++
- **Web Development:** HTML, CSS, JavaScript, PHP
- **Databases:** SQL
- Tools: Git

PROFILE

I'm an adaptabe Full Stack Developer with a reliable understanding of both front-end and back-end technologies. I have the ability to manage all aspects of web development, from designing visually appealing user interfaces to handling complex databases. My wide-ranging skill set allows me to see the overall picture and integrate various components of a web application seamlessly. I'm always eager to learn new technologies and I'm committed to delivering the best user experience possible. My problem-solving abilities and thorough attention to detail are among my strongest assets. I look forward to bringing my skills to any development team and contributing to the creation of impressive web applications.

PROJECTS AND EXPERIENCE

CSS Voting System
Database Management System

2023 - 2024

- Developed a voting system using PHP for server-side scripting and CSS for styling.
- Implemented a database management system to securely store and retrieve voting data.

3D Emergency Evacuation Map
Operating System

2022

- Created an animated 3D emergency evacuation plan map using Python and Blender.
- The project involved designing the map, animating the evacuation routes, and scripting the animations with Python.

Data Analytics
Work Immersion

2021

- Used statistical techniques to interpret data and analyze results.
- Identified, analyzed, and interpreted trends or patterns in complex data sets.

Data Visualization Tools: Tableau, Matplotlib, Seaborn, etc.
Excel: used for simpler data analysis and manipulation tasks.
